New to Programming ?

So you started to learn coding..
and you are watching tutorial videos

few tips you'll like →

Tip 1

Don't watch tutorials like a Netflix series

Do more Practice than watching videos

Don't switch languages again and again

## master one language first

Tip 3

Be consistent

do coding everyday, even
if you don't have much
time, give atleast 30mins

Tip 4

Find a coding buddy

someone who can challenge you so that you don't loose motivation

Don't hide from difficult topics

start from easy problems and work your way up, but don't skip problems that looks difficult
